

MAGNETIC TOOL DEVICE

INSTALLATION INSTRUCTIONS

Part No. TL0002

INSTALLATION INSTRUCTIONS

Magnetic Holder Tool Kit (TL0002) is a tool designed for assisting the installation and assembly of the B&D Panelift Icon™ Smoothtrack™ components.

It consists of a metal strip with a magnet on opposite sides at each end (Figure 1).

The tool is flexible which enables it to attach to the end stile and bogey as shown, this temporarily holds the Smoothtrack™ bogey in the desired position preventing it from turning whilst entering the assembly into the sectional door tracks (Figure 2).
