

THERE'S SO MUCH MORE BEHIND A DOOR

Flex-A-Door

Manufactured by B&D, the Flex-A-Door is made from a durable Roll-A-Door corrugated steel curtain that's fitted onto a curving track and slides from a vertical position to a horizontal position close to the ceiling.

Flex-A-Doors are ideal for replacing existing tilt doors, and are suitable for openings up to 3.1 metres wide. The smart design incorporates a retractable head infill-panel, ensuring full clearance of the garage door opening.

FEATURES & BENEFITS

- Suitable for low headroom solutions
- Great for accommodating vehicles that require extra height, such as 4WDs and SUVs
- They open upwards and parallel to the ceiling
- Vehicles can be parked right up to the front of the garage door
- Constructed from quality corrugated steel
- Strong & attractive Roll-A-Door curtain
