Please follow diagram for correct installation

Fixing (shown shaded) must be solid timber, masonry or steel. Face of lintel must be flush with walls. Ceiling to wall above doorway must be square set (no cornice).

NOTE: Particle board or the like, timber less than 75mm thick, hollow masonry or unsuitable thickness steel will not be fixed to. If in doubt please consult with your engineer or B&D representative.

If floor rebate is required it must extend at least 100mm more than the opening on each side and back from the fixing face at least 100mm (see below detail).

NOTES: Doors higher than 2230mm will require two additional fixings at 2400mm.
