**Garage Door Openers**

This device allows for operation of the door when not in line-of-sight of the door and opener.

The door may operate unexpectedly, therefore do not allow anything to stay in or near the path of the door. When the door is not operating automatically, watch the door when it is moving and keep people away until the door is completely opened or closed. **Contact with the moving door can cause serious personal injury or damage to property.**

It is our strong recommendation that your opener be fitted with **SAFETY BEAMS**. Safety Beams detect any obstructions in the doors path and override automatic operation if one presents. These must be installed as in accordance with AS/NZS 60335-2-95:2012. This is in addition to regular professional servicing, and monthly obstruction tests as detailed in your opener’s Home Owners Manual.

---

**Important Safety Instructions**

**WARNING!**

- DO NOT attempt to disassemble, repair or modify the product. This will invalidate the warranty.
- DO NOT install product on openers that control J-Type or Single Piece Doors.
- Do not allow children to play with the Smart Hub or your smart phone if the ATA phone app has been installed.

**ELECTROCUTION!**

- Keep the device away from water and other liquids. In the event that water or other liquids enter the device, power off the product immediately and clean the device.
- To reduce the risk of fire or electric shock, do not expose this device to rain or moisture. The device should not be exposed to dripping or splashing.
- DO NOT remove the cover as there are no user-serviceable parts inside.

**CAUTION:**

- Fall from ladder
  - Ensure ladder is the correct type for job.
  - Ensure ladder is on flat ground.
  - Ensure user has 3 points of contact while on ladder.
  - DO NOT handle damaged or leaking batteries
Auto-Lock Kit - Installation instructions

Smart Hub Set Up

Mounting the Hub
a. Determine whether you are going to wall mount the hub.
   i. If hub is to be placed on bench, simply connect to power supply ②, turn on and proceed to installing the Transceiver.
   ii. If hub is to be wall mounted follow steps below.

b. To wall mount - Use wall bracket ③ as template to mark where to drill holes. Pre-drill holes.
   i. For plaster walls - insert (2) two Plastic wall plugs ④ into holes, place wall bracket over holes and affix with (2) two self tapping screws ⑤.
   ii. For brick walls - place wall bracket ③ over holes and affix with (2) two self tapping screws ⑤.

c. Slide the hub over the bracket.
d. Connect the power supply ② and turn on.

This device must be connected to power at all times. DO NOT disconnect power after setup.

Mounting the Transceiver to the Opener
a. Disconnect the power supply to the opener.
b. Remove the left hand side pocket from the opener.
c. Reach inside the opener and pull out the 5 pin harness and connect to the wireless basestation module ⑥.
d. Place the module into the pocket and refit the cover.
e. Download the B&D App and follow the instructions in the App to setup new smart hub.
f. Use a programmed remote and run the door through a few cycles which will update the unit with the details of the transceiver module.

Warranty

| WARRANTY   | ACCESSORIES | 1 year |
